THE HEART OF THE ISOLITE PRO: THE MOUTHPIECE

The brilliance of an Isolite System is in the mouthpiece! Our patented and proprietary design makes our mouthpieces extremely flexible and allows you to treat a wide range of patients.

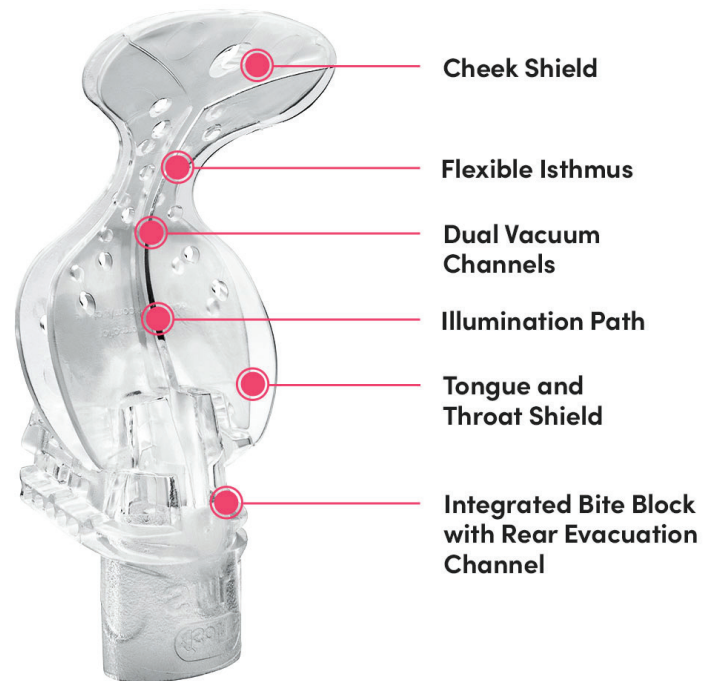

Gain more control of the oral environment with the Zyris Isolite Posterior two-quadrant and Anterior pre-molar to pre-molar mouthpieces.

- Dual-Channel Suction Control with continuous hands-free saliva and water evacuation
- Tongue and cheek retraction for ideal access and control
- Integrated Bite block and airway protection for patient safety and comfort

ISOLITE PRO
ANTERIOR MOUTHPIECE

ISOLITE PRO
POSTERIOR MOUTHPIECE

Isolite Mouthpieces were designed to be single-use to make sure there are ZERO cross-contamination opportunities while using the Isolite system.

For over 15 years, Zyris Isolite has been a committed partner to all military branches with our GSA contract, established in 2011.
